● ABOUT ME

I have been passionate about games since childhood, and over time that passion evolved into a strong interest in gameplay and systems programming. I am particularly drawn to the technical side of how games feel to play, not just how they function. I care about building experiences that are responsive, immersive, and thoughtfully designed, combining solid programming with attention to the player's overall experience.

● EDUCATION AND TRAINING

19/12/2024 – CURRENT Rome, Italy

MASTER'S DEGREE IN ENGINEERING IN COMPUTER SCIENCE Sapienza University of Rome

Interactive graphics with WebGL; cybersecurity, including hands-on malware analysis using PeStudio, IDA and Scylla; mobile application development; cloud computing; backend and frontend development; microservices architecture; SQL and NoSQL databases; digital entrepreneurship laboratory.

Level in EQF EQF level 7

20/09/2021 – 18/12/2024 Rome, Italy

BACHELOR'S DEGREE IN COMPUTER ENGINEERING – FINAL GRADE: 101/110 Roma Tre University

Final thesis project focused on the procedural animation of a spider in Unreal Engine using Blueprints. Main subjects included algorithms and data structures, object-oriented programming, Java, Spring Boot, SQL and database fundamentals, mobile application development, mathematics, physics, and core computer engineering subjects.

Level in EQF EQF level 6

● SKILLS

Game Development

Unity | Game Development | Unreal Engine | Blueprints | Gameplay Programming | Procedural Animation

Programming Languages

C# | Java

Software Development

Object-Oriented Programming | Git | SQL | Algorithms and Data Structures | Debugging

Systems and Applications

Mobile Application Development | Microservices | Cloud Computing

Professional Skills

Problem Solving | Teamwork
